Top 5 ice-breakers

by mathemou.com

- 1) **Pass the ball:** The students pass the ball around while music is playing. When the music stops, the student holding the ball introduces themselves and answers a question.
- 2) **Draw and Describe:** Divide the students into pairs. The first one describes a simple image giving as many details as possible while the other tries to draw the image based on what they hear.
- 3) **True - False:** The students write down 4 statements about themselves. Then, they exchange papers and try to guess which of their partner's sentences is true and which is false.
- 4) **Summer Taboo:** Play the famous game using the summer cards available at mathemou.com. It can also act as a discussion prompt for sharing holidays experiences
- 5) **This or that?:** Based on the TikTok trend, prepare some dilemmas beforehand based on your students' level e.g. vanilla or chocolate, city or countryside. Have them stand at the back of the classroom and move right or left according to their choices. You can film it and upload it as a TikTok video for extra fun!

**Education is the most powerful
weapon which you can use to
change the world**
NELSON MANDELA
